

**Friday, August 14 - Course Redesign Studio**  
**Venue: Loo Theatre (Black Box)**

The Course Redesign Studio is an abbreviated day to assist faculty in redesigning their courses. The day will share learning theories to consider before design, then the Wiggins & McTighe Backward Design Model, which includes **results** (aligning student learning outcomes); **evidence** (assessment strategies, matrix, outcomes matrix); and **experiences** (planning, active strategies, teaching models), which culminate into syllabus design.
